DETAILED ACTION

Response to Arguments

1. The Examiner has carefully considered Applicant's thorough response dated 06/03/09. Applicant's amendments to the claims have been entered and overcome the cited prior art. The double patenting rejections are being withdrawn in light of the amendments and that this is the first to issue. Therefore, all previously made rejections are now withdrawn and the application is allowed.

Allowable Subject Matter

2. Claims 18, 25-32 and 36-50 are allowed.
3. The following is an examiner's statement of reasons for allowance: All previously applied art rejections have been withdrawn in light of Applicant's thorough remarks and that fact that the cited prior art does not provide for the claim limitations as set forth in the current claims.
4. Therefore, it is the conclusion of the Examiner that the prior art of record fails to provide for the compositional, structural and dimensional limitations as set forth in Claims 18, 28 and 29. More specifically, A biodegradable fibrous web comprising fibers made of polylactic acid, the web having a durable hydrophilic surface coated with a hydrophilic polymeric material in an amount of from about 0.01 to about 2.0 percent by weight, based on the dry weight of the web; in which the hydrophilic polymeric material is a cellulose derivative, the cellulose derivative selected from the group consisting of hydroxyethyl cellulose,

hydroxypropyl cellulose, methyl cellulose, ethyl cellulose, methyl hydroxypropyl cellulose, ethyl hydroxyethyl cellulose, carboxymethyl cellulose, or a combination thereof; wherein the hydrophilic polymeric material will not significantly suppress the surface tension of an aqueous medium with which the web may come in contact.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
